

PRODUCT DATA SHEET

Arc Skid, Size 6 Grey

The Arc Skid Chair has been carefully curated and manufactured to be used in conference rooms, lecture halls and even modernised office settings.. The skid frame provides added stability on a variety of floor types and the chair is lightweight enough to easily move around. The chair is also UL94 V-2 rated, meeting high safety standards.

FEATURES & SPECIFICATION

Color	Usage Recommended	Weight Tolerance	Guarantee
Grey	8 hours	115 kg	5 years

- The Arc chair is part of a limited number of products that have been certified to both parts 1 & 2 of the education standard BS EN 1729, specifying strength, stability and ergonomic requirements.
- Arc is a robust, single shell, injection moulded chair – multipurpose and versatile with various leg sets and colour palettes from which to choose.
- It is 100% recyclable, has a fire resistant additive and contains an antimicrobial additive which is proven to kill bacteria whilst also inhibiting fungal growth. The polypropylene material is lightweight, durable, easy to clean and has a weight tolerance of 115kg.
- Arc uses compound curves to engineer comfort, ergonomics, and strength, with multipurpose accessories like bag bases and personal workspaces (arm tablets) available that help keep your space your own.
- The Arc is designed for classrooms, conference rooms, seminar halls, education and modernised office spaces.
- The powder coated steel skid leg chair is ideal for non-carpeted rooms and assembly halls. The non-marking feet prevent damage to floors.
- The chair has also been carefully designed to be light and easy to nest when not in use.
- The carry handle and lightweight material means moving the Arc chair to create collaborative spaces a breeze.
