

Faithfull (FAITDCAMSET4)

Cam Buckle Tie-Downs 5m x 25mm, 4 Piece

Faithfull Cam Buckle Tie Downs are ideal for firmly securing loads quickly and efficiently. These quick release tie downs are designed for use when transporting lightweight items and are perfect for use with car roof racks. Manufactured using 100% soft polyester webbing and in accordance with EN 12195-2, these tie downs are extremely hard wearing, durable and robust. Cam buckle straps are efficient and quick to use; the webbing is simply pulled through a self-locking cam buckle to the desired tension. Releasing the load is easily achieved by pressing down on the quick release lever at the rear of the buckle to release the tension. A protective tab prevents scratches.
